

Would you like to work on an AI-related project at a boutique consultancy in South Africa – during the German winter?

Gain experience abroad: 8-12 weeks in South Africa

- Come to Johannesburg, the business metropolis of Africa, preferably in the German winter and African summer, between November 2022 and April 2023

Gain start-up experience: boutique consulting spin-off

- Support a young, fast-growing company and work directly with the German, Swiss and South African founders

Gain consulting experience: ex-MBB

- Work with ex-McKinsey, Bain and Monitor Deloitte consultants

Gain AI technology experience: build a suite of AI tools for consulting

- Conduct a study on all tasks of a consulting firm and investigate AI tools that can support these tasks
- Learn how to get the most out of these AI tools for them to have the highest impact
- Prepare training materials for the Anura Team and document the technology implementation process

Gain team experience: 2-4 fellow students

- Comes as a team of 2, 3, or 4
- We support you with a travel and accommodation budget

We are already in consultation with the TUM Entrepreneurship Chair
