QuantumDiamonds Project study
Go-to-Market strategy for quantum sensing startup

What we are looking for?

• First working experience in a high-pace environment (start-up, consulting, banking)
• Technical background OR high level of motivation to get your head around the basics of quantum technology to understand its business value
• Good communication skills in English

What we offer?

• First-hand insight into one of Munich’s most exciting deep tech start-ups
• Daily interaction with the founders in our office located at the Design Offices (Königsplatz)
• Shape the company with your ideas and potentially join us early on

Project tasks and goals

• Perform competitor and collaborator analyses to validate our market positioning
• Develop a market entry strategy for our quantum microscope in the Healthcare, Battery & Photovoltaic and Biochemistry Industries
• Identify customer needs and acquisition channels

Interested?

Apply as an individual or team of 2-5 people for three months full-time or six months part-time (preferred).

Send your CV, the exact start date and proposed team members to: tammo.sievers@quantumdiamonds.de

About us

QD is a Munich-based deep tech startup that wants to bring quantum technology to the next level

We have developed and sold ready-to-use diamond-based quantum sensors for various applications

We are a diamond based quantum sensing start up in the semiconductor industry and we are keen on expanding to the Healthcare, Battery & Photovoltaic and Biochemistry Industries

We have raised seed financing and put together a high-profile complementary team, consisting of quantum technology and business experts
