

AI-powered all-in-one solution for scientific work

Everybody is talking about AI and LLMs - Be part of it!

About Litref:

- US based SaaS-Startup with customers globally
- AI-powered software for scientific work
- Founded by two MDs and researchers from Klinikum rechts der Isar/TUM
- Check it out: www.litref.com

About you:

- Team of 2-5 students (individual applications are also welcome)
- Great communication skills in both English and / or German
- Interest in start-ups & a dynamic work environment
- Interest in the tech industry

About the Project:

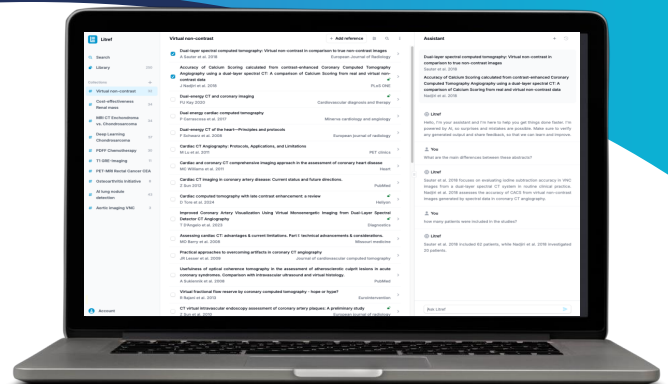

The project would be 3 months full-time or 6 months part-time (Flexible working hours & remote working) starting Feb/March 2025.

The tasks of the project may be dynamic (as working in a startup always is), but your support would be most appreciated in:

- **Customer analysis** (Who would be the best target group and how can they be approached?)
- **Product analysis** (What adaptations do we need to make to our product to fit this target group?)
- **Market entrance strategy** (How to best enter different markets?)
