

Join our boutique consulting firm in South Africa to work on an exciting AI-related project

Gain global experience: 8–12 weeks in South Africa

- Spend your 2025 summer in Johannesburg, Africa's economic engine—a vibrant, complex city where global business meets local innovation

Gain start-up exposure: boutique consulting firm

- Join a dynamic, fast-growing strategic consultancy and work hands-on with its leadership team on high-impact initiatives

Gain consulting experience: ex-McKinsey and Bain

- Collaborate with seasoned consultants from top-tier firms (McKinsey, Bain) and learn what it takes to tackle real-world strategic challenges

Gain cutting-edge insight: AI in strategic consulting

- Explore how LLMs can enhance core consulting workflows and client delivery
- Analyze AI-driven tools for research, policy design, and strategic decision-making
- Develop practical frameworks for using AI to improve speed, quality, and insight
- Investigate ethical challenges and propose responsible AI use practices in consulting

Gain team experience: 2-4 students

- Comes as a team of 2, 3, or 4
- We support you with a travel and accommodation budget

We are already in consultation with the TUM Entrepreneurship Chair
