IDP: Software Engineer / Frontend Developer (f/m/x)

selph

About Us

With Selph we are digitizing psychotherapy. We want to help people, who suffer from mental illness to tackle their challenges and to get immediate and long lasting help. Therefore we are developing a platform with exercises, emotion tracking and video calls. Selph can seamlessly be integrated in a therapy and the daily work of a psychotherapist.

Your Profile

- ☑ You are familiar with frontend libraries and frameworks such as React and hybrid app development such as Ionic and React Native
- ☑ You have used object-oriented languages like TypeScript
- ☑ You have first experience with RESTful APIs and frameworks such as NodeJs
- ☑ You have first experience with deploying applications to services such as AWS and with collaboration tools such as git
- ☑ You write clean and maintainable code with sensible testing and leave the codebase better than you found it
- ☑ You work independently, structured, and proactive

Possible Projects

You will develop new frontend and backend features for our mobile application. For example:

- ⇨ Build new features for our mobile app such as encrypted video call functionality
- ⇨ Build a web app to complement the mobile app
- ⇨ Develop machine learning algorithms to determine user clusters and provide customized recommendations
- ⇨ Develop backend services and APIs
- ⇨ Implement best of breed security mechanism to ensure data security in healthcare sector

Our Offer

- ☞ Be one of the first members of a startup
- ☞ Many opportunities to shape our company, product, and tech stack
- ☞ Work in an agile environment with SCRUM
- ☞ Flexible working hours and possibility to work in Munich, Garching or remote
- ☞ Interdisciplinary and highly motivated team in a fun and friendly work environment

Are you interested?

You can apply alone or as a team and the work schedule can be agreed with each IDP team member individually.

Just write us a short email with your relevant experience, CV and current transcript of records. Together we can determine your specific tasks according to your interests.
