

## Project Study

# Online Marketing & Outbound Sales Strategy

## About DCUBED

DcubeD is revolutionizing the space industry by creating small and reusable solar arrays and actuators that are used in rockets and satellites. Among our customers are NASA and MIT.

## About our team

We are a young, remote-first startup with a team of 22 talented and international individuals.

## Why now?

Exciting things are happening at the moment - we will soon receive our Series A investment round and expand to the US!

## Why join us?

You will experience the transition from an early-stage startup to a scale up

You will lead projects of your own in marketing and sales

You have full flexibility on how and where you work

You will work for a global market, with a focus on the US

You will work with and learn from bright minds

You will have the possibility to join us in the long run

## What will you learn?

### In Marketing

Content Creation | SEO | White Papers | Social Media Management | Design | Case Studies

### In Sales

Lead Identification | Lead Generation | Writing Cold Emails | Improving the Sales Process
