

Software Engineering Working Student / Intern (m/f/d)

Internship, Working Student · Munich Office

YOUR ROLE

You want to create a new software category to digitize the German machine manufacturing industry? You love to take on responsibility and to work independently on projects? Are you eager to support a young SaaS company with your ideas and engineering skills?

As a Software Development Working Student/Intern you will be part of building the core of our our solution.

YOUR RESPONSIBILITIES

- Together with our product & engineering team you ship new features for our cloud-based platform that immediately bring real value to our customers
- You work closely with our users to get feedback to improve our solution
- You build beautiful, reusable code and libraries for future use
- You strive to deliver the best possible experience for our users by empowering them through an effective software
- You document and test developed features to ensure the quality of our product
- You work with state-of-the-art technologies to make our competition look like Windows 95

YOUR PROFILE

- You are studying computer science or a similar subject (preferably Master level or late Bachelor level)
- You have first experience in JavaScript based Web-App development and practical experience using Angular
- You have first experience with web technologies such as CSS/Sass, HTML5, NodeJS, TypeScript, and MongoDB
- You understand object-oriented programming and browser technologies and you have experience with GIT version control in a production environment

- You have strong written and spoken English skills (level C1)

WHY REMBERG

- Take the opportunity to help shape a VC-backed start-up from the ground up and have a measurable impact on the early development of our product
- Become part of the team to bring a conservative industry, such as the German machine manufacturing industry, into the digital age
- Get all the benefits of a start-up (flat hierarchies, flexible working hours, responsibility, central office in the heart of Munich, cool team events etc.)

ABOUT US

remberg is a Munich-based high-tech company that helps medium-sized industrial companies to become digital champions in service for their machines, equipment and customers.
