

Interested in high tech and management? We are hiring two student assistants!

Your profile

- Strong interest in technology and innovation management
- Structured, exact and autonomous working style
- Good skills in MS Excel and MS PowerPoint

Your responsibilities – support of diverse activities including...

- Research on firms' innovation and appropriation strategies
- Analysis of patent and firm-level data (qualitative / quantitative)
- Review of literature and support of administrative tasks

Your benefits

- Insights into current research in technology & innovation management
- Acquisition of relevant skills for your final thesis
- Working hours flexible (typically 6-8 h per week)

Please send your application (CV, grade overview, high school diploma and short cover letter) to:
