

We are currently hiring student assistants

We are looking for highly motivated student assistants who will support us with ongoing research at our chair, ideally starting between mid May and early June 2024.

You'll be involved in different [ongoing research projects](#), to name only a few: explainable artificial intelligence, patent licensing and management, technology acquisitions, behavioral theory of the firm, and recombination. You'll be part of our team and work with different people from the chair – offering you the opportunity to get insights into many different topics and research projects. Your tasks are ranging from literature and data searches, interview transcriptions to quantitative analyses.

Occasionally you'll also get involved in administrative tasks with regards to our teaching offer.

We're looking forward to your application!

Your profile

- Strong interest in innovation and technology management, curiosity to work on ongoing research
- Structured and independent working style
- Good skills in MS Office, and preferably Python
- Fluency in English required, German optional

What's in it for you

- Insights into ongoing research projects in the field of technology and innovation management
- Expansion of your methodological skillset
- Integration in our highly motivated team
- Flexible working hours (typically 6-8 hours per week)

Please send your application (CV, transcript of records) to pietro.fantini@tum.de until Friday, April 26th, 2024.

Dr. Theo Schöller-
Stiftungslehrstuhl für
Technologie- und
Innovationsmanagement

Prof. Dr. Joachim Henkel

Arcisstraße 21
80333 München
